LIMITS NUMBER OF SALOONS

Senate Passes the Alderman Measure.

AMENDMENTS MEET DEFEAT

Bill Limits the Saloons to One for Every Five Hundred of the Population—Efforts to Have It Reduce Number Now in Operation Ends in Failure—Repeal of Corrupt Practices Act Recommended.

St. Paul, March 2.—The senate in committee of the whole passed Senator Alderman's bill limiting the number of saloons to one for every 500 of the population.

Senator Thorpe tried to have the proposed law amended so that it will apply to present conditions in that places which now have more than the limit will be able to reduce their number. Senator Putnam also attempted to have an amendment so that 505 people would not warrant two saloons, but that the major fraction of 500 would be required before another saloon be permitted. Both were defeated and the original bill was recommended to pass.

The bill provides that no more than the present number shall be permitted until the population of a city or town shall be more than 500 for each saloon. Many towns in the northern part of the state will thus be prohibited from having more saloons for many years, while those in the southern part may have more, as saloons are less numerous there.

The public health committee recommended for passage Senator Sundberg's bill restricting the sale of mallein and tuberculin. Druggists are to report the sale of this test for

glanders and tuberculosis to the state live stock board.

Depositors' Protection Fund Plan.

Senator A. L. Hanson of Ada has a depositors' protection fund scheme which he has introduced. It limits the amount of deposits of banks to ten times or eight times the capital and surplus according to location in the country; or in towns of over 50,000. County banks pay one-tenth of 1 per cent tax and city banks one-fifth of 1 per cent to the fund from which depositors of failed banks are to be paid. The fund for country banks is 2 per cent of the total deposits, that for city banks half the amount.

A bill to repeal the section of the code which provides \$200 bounty for any one who catches a horse thief and a bounty of \$2.50 per acre for any person who plants trees on prairie land, are repealed in a bill introduced in the house by W. H. Putnam of Red Wing.

A bill to stir up negligent county attorneys was introduced in the house by John Saugstad of Climax. It permits any citizen or association to employ an attorney to take charge of the prosecution of violators of the liquor laws and provides that the attorney general may prosecute such cases when the county attorney fails, or name an assistant to do it who shall be paid \$10 a day by the county. It also provides that county attorneys who fail to enforce the liquor laws may be fined \$100 to \$500 and imprisoned thirty to ninety days in the county jail.

The senate in committee of the whole recommended the repeal of the entire corrupt practices act. Senator D. S. Hall of Buffalo Lake, the author of the bill repealing the act, said that he is in favor of pure politics, but that he is anxious to do away with the perjury at present involved in making election expense statements.

Used for Trading Purposes.

Stating that the Cass Lake and Bemidji normal school bills had been used for trading purposes for a month and that they might still be used to advantage in that way, Senator Ray G. Farrington of Ortonville opposed the motion of Senator D. M. Gunn of Grand Rapids for a favorable report on the Cass Lake bill.

Senator Frank Clague of Lamberton and Senator S. D. Works of Mankato urged delay, as some of the senators interested were not present.

The Nimocks bill re-enacting the anti-pass law in such form that policemen, firemen and letter carriers, city health officials and members of the salvage corps may accept passes passed the house by a vote of 13 to 83. The bill also permits railway employees to hold non-salaried offices and still retain their passes.

Representative G. A. MacKenzie is the author of a bill which prohibits the use of dogs in taking mink or the use of a shotgun to kill muskrats.

Bankers of the Twin Cities were heard at a joint meeting of the house and senate committees on banks and banking in the senate chambers on a number of banking bills.

Senator L. Thorpe's bill for the creation of a separate banking department and divorcing that function from the public examiner's office has the warm support of the bankers of the whole state.

Senator V. L. Johnson's bill making it a criminal offense to obtain credit by making false statements received the hearty support of the bankers.

The creation of a savings department in state banks was also discussed, as was the gross earnings tax on banks.

AGED MAN BREAKS RECORD

Beats Roosevelt's Recent Ride of Ninety-six Miles.

Piqua, O., March 2.—Dr. G. C. Throckmorton, aged sixty-five years, beat the military ride of President Roosevelt of ninety-six miles, military gait, when he rode three horses in relays from Sidney through Piqua to Troy, twenty miles and return, three times, 120 miles in all, in 13 hours and 45 minutes. The ride had been given considerable publicity and notwithstanding the day ended rainy and bad, the doctor was greeted by large crowds along the route and upon his return to Sidney on the last trip was welcomed by a brass band and people enthusiastically.

The result was telegraphed to President Roosevelt, who has manifested some interest in the effort to break his record.

Bold Assault in Daylight.

Dayton, O., March 2.—A bold assault in broad daylight occurred when Mrs. May Mesaros, a pretty Hungarian woman, was seized by a negro and only escaped after he had torn almost all her clothing from her and had beaten her severely. Several hundred Hungarians of the neighborhood gathered and after listening to a harangue by one of their number scattered and with arms in their hands began searching for the negro.

WITNESS SOLD IN OPEN COURT

Extraordinary Incident in the Cooper-Sharp Trial.

PURCHASED BY THE DEFENSE

Physician Who Performed an Autopsy on Senator Carmack's Body Becomes Witness for the Defendants on Their Agreeing to Reimburse the State for the Costs of the Autopsy, Including the Doctor's Fee.

Nashville, Tenn., March 2.—The spectacle of counsel on one side not only selling a witness to the opposition, but haggling over terms, was one of the extraordinary incidents in the trial of Colonel D. B. Cooper, Robin Cooper and John D. Sharp for the slaying of former United States Senator E. W. Carmack. The subject of the commercial transaction was Dr. McPheeters Glasgow, who had been employed by the prosecution to go to Columbia and perform an autopsy on Senator Carmack's body. He did so and reported his findings to the prosecution. He was subpoenaed by the state, but was not used. The defense learned of the autopsy and summoned the doctor.

Dr. Glasgow told counsel for the defense that his services as an expert had been retained by the state and that he would not discuss the case except with the attorneys general. The defense asked the court to instruct the doctor to talk to its counsel. The court complied partially by telling the doctor that it would be proper for him to talk with the defendants' attorneys if he had any information that would throw light on the killing. The state objected, and the doctor stood firm. Unless the state, which employed him, ordered him to consult with the opposition, he declined to talk. The state suggested that the defense swear the doctor and put him on the stand. The defense resented the suggestion and declared it would put no witness on the stand without knowing to what he would testify.

Offered to Sell Witness.

Then the state's counsel consulted and Attorney General McCann made the proposition: That if the defense would pay the state the costs of the autopsy, including Dr. Glasgow's fee, the state would waive its rights.

As Judge Hart said "the defense wanted to see the goods before they bought," and they offered to confer with Dr. Glasgow and, if they decided to use him as a witness, to reimburse the state.

To this counter proposition the prosecutors entered an emphatic veto. "Pay whether you use him or not," they said, and the court commented: "They want to sell the goods in a bag."

There was another hurried conference and the defense "bought the goods in the bag" and Dr. Glasgow became their witness. The significance of his testimony was that any one of the three wounds was necessarily and instantly fatal and that if the senator did not fire the first shots, he could not have at all. The only other sensational witness of the day was S. J. Binning, who claimed to have seen Senator Carmack fingering his revolver and testing the cylinder a few moments before the shooting began. He was badly confused on cross-examination, however, and contradicted himself on many important points.

ONE FARMER ON THE JURY

Selected to Try the Standard Oil Company in "Big Fine" Case.

Chicago, March 2.—Roy Cunningham of Belvidere, Ill., is the only farmer on the Standard Oil retrial jury which has been completed in United States District Judge Anderson's court. The preponderance of agriculturists on the first panel of veniremen caused its dismissal at the request of the defense. Attorney John M. Miller vividly remembering that it was a farmers' jury which made possible Judge Landis' fine of \$29,240,000. Mr. Cunningham's companions in the jury box include five grocers, a well known driver, a retired jeweler, an advertising agent, a tailor, a mechanic and a live stock dealer.

The opening statements of counsel will be made today. As the witnesses and evidence will be about the same as in the original hearing and the points at issue have been sharply defined, it is hoped to conclude the case in a fortnight. Judge Anderson last week ruled informally that the company can be accused of only thirty-six offenses, for which the highest possible penalty is an aggregate fine of \$720,000.

BLAINE AGAIN ON WITNESS STAND

Nothing Sensational Develops From His Testimony.

Madison, Wis., March 2.—State Senator John J. Blaine, who made the sixteen specific charges of alleged corruption against United States Senator Isaac Stephenson, again appeared before the legislative senatorial primary investigation committee, but nothing of a sensational character developed from his testimony.

Mr. Blaine was first examined with reference to a charge that M. C. Keller of Sauk county had received \$300 of the Stephenson fund. Blaine considered the expenditure of that amount in Sauk county sufficient to attract attention in the light of what was known. Standing alone it might not be so considered, he said.

The information that C. M. Hambricht of Racine was one of the Stephenson managers, Mr. Blaine said, came from an editor of a Milwaukee afternoon paper.

An Appleton newspaper was the source of information that Roy Morse of Fond du Lac was Stephenson's manager for that county and he thought the paper stated Morse received \$1,000, but he was not sure. As to the activity of E. M. Hyzer and Max Sells, relating to the defeat of E. M. Nelson of Elmhurst, Mr. Blaine said a Milwaukee newspaper man gave him the information.

Senator Blaine insists that E. A. Edmonds, manager for Stephenson, told him that \$106,000 was spent in the campaign, though Edmonds denied this before the committee last week. He thought it was his duty to present his charges to the legislature in view of the state-wide talk and newspaper references to the enormous expenditures.

CENTENARY OF POE'S BIRTH

Celebrated by Distinguished Persons at Banquet in London.

London, March 2.—A brilliant company gathered at a banquet at the invitation of the Authors' club to celebrate the centenary of the birth of Edgar Allan Poe. Sir Arthur Conan Doyle presided and was supported by Ambassador Reid and Mrs. Humphrey Ward, many leading British authors and a large number of American residents of London. Among the guests was Captain Poe, the oldest surviving member of the Poe family. The speeches, which were delivered by Ambassador Reid, Sir A. Conan Doyle, Captain Poe, Charles Garvice, the novelist, and Francis Henry Gribble, the critic, were interspersed with recitations of Poe's poems.

Sir Conan Doyle, after referring to the tragedy of Poe's life, paid a glowing tribute to Poe's work, saying "it is the irony of fate that he, as he said he should, died in poverty, for if every man who wrote a story which was indirectly inspired by Poe were to pay a tithe toward a monument, it would be such as would dwarf the pyramids." The speaker generally credited the inspiration for his own detective stories to Poe.

Former Congressman Barber Dead.

Eaton, Md., March 2.—Isaac Ambrose Barber, who represented the First Maryland district in congress in 1896-98, died here, aged fifty-seven years.

SON OF SPANISH DANCER

Claims to Be the Heir of Lord Sackville West.

Madrid, March 2.—The case of Ernest Henry Battiste West, claimant to the Sackville peerage and estates against Lionel Edward Sackville West to whom the estates have passed, has opened in this city. The case hinges on the legitimacy of the claimant.

Another claimant to the estates has appeared at Grenada. This man declares that he can prove his claim by documents received from the late Lord Sackville.

The late Lord Sackville, uncle of the present holder of the estates, was British minister to Washington in 1888.

Ernest West is the natural son of Lord Sackville, who, while he was in Madrid, formed an irregular alliance with a Spanish dancer named Josephine Duran de Ortega, and his claim to the title and estates has aroused a great degree of sentimental interest.

No attempt will be made to deny that Lord Sackville lived with Josephine de Ortega as his wife and that he formally legitimized his children by her, but Lionel will contend that the dancer in 1851, eighteen years prior to the birth of Ernest, contracted a marriage with a Spaniard named Oliva and that consequently Lord Sackville's legal recognition of his children is nullified.

DENOUNCED BY CANON CHASE

Accusation of Commissioner Bingham Against Dr. Parkhurst.

New York, March 2.—The accusation made by Police Commissioner Bingham against the Rev. Dr. Charles H. Parkhurst that the latter had been "the cause of the spread of more social evil than anything else that has happened in two generations," was bitterly denounced by Canon Chase of Brooklyn at a meeting of clergymen and laymen held in the Madison Square Presbyterian church to protest against Sunday vaudeville and moving picture shows.

The Brooklyn clergyman characterized the accusation of the police commissioner as a slander against Dr. Parkhurst and assailed the good faith of the official. He referred to a statement in which it was said that the national Jewish committee had made arrangements with the police commissioner whereby Hebrews would be allowed to carry on business on Sunday and demanded to know by what right such an arrangement had been entered into.

Dr. Parkhurst was not at the meeting, but a letter from him was read. In his letter Dr. Parkhurst declared that he believed in the maintenance of Sabbath statutes, of "just as rigid a character as the police department, energetically administered, can enforce."

WITH THUNDEROUS REPORT

Powder Plant Blows Up and Kills One Man.

Dayton, O., March 2.—With a thunderous report that shook everything for miles around, an explosion rent the smokeless powder department of the King powder works at Kings Mills seven miles southwest of Lebanon, and with the utter destruction of the plant, Walter Thompson of Lima, O., the only man in or about the building at the time, was killed. His body was badly mangled. The property damage was about \$1,000.

There is no one to tell the story of how the explosion occurred. Thompson, who was a new employee, had been left in charge of the plant at the noon hour.

TAFT FREE FROM WORRY AND CARE

President Elect Enjoying Himself in Washington.

Washington, March 2.—A rush of morning callers, interrupted for a long walk in the afternoon and attendance at night at a special dinner in his honor by the "Taft Philippine expedition" brought President Elect Taft to within two days of his inauguration with less serious demands on his time than he has experienced during any day since his landing from Panama and New Orleans.

The apparent splendid physical condition, the universal good humor and absence from worry and nervous strain of Mr. Taft make a uniformly gratifying impression on the many statesmen, politicians and friends who are received by him daily. His jovial remark is that "his inaugural address is prepared, his cabinet selected, the inaugural committee is preparing all details for the ceremony on Thursday, and why should he feel otherwise than comfortable?"

The day was begun with an extended conference between the president elect and Senator Knox, at which many important matters pertaining to the next administration were gone over. Mr. Knox is giving much attention to the prospective organization of the state department, over which he is to preside after March 4. Besides, he is being consulted freely by Mr. Taft regarding the affairs of other departments, Mr. Taft having many times remarked that he should give great weight to the judgment of his premier.

The Philippine dinner was arranged by Miss Mabel Boardman and Representative McKinley of Illinois, and was the most pretentious of the enjoyable occasions which this famous party indulge in every year. There were present seven United States senators and twenty-four members of the house of representatives, besides a number of otherwise distinguished personages who sailed to the Orient with Mr. Taft in 1905. The trip attained most of its fame because of the matrimonial accomplishments resulting.

Representative Nicholas Longworth and Miss Alice Roosevelt became betrothed; Representative Bourke Cockran met Miss Ide, daughter of Judge Ide of the Philippine commission, who is now Mrs. Cockran, and Representative Swager Sherley of Kentucky met Miss Mignon Critton of Staten Island, to whom he became engaged.

In Memory of Allison.

Des Moines, Ia., March 2.—Iowa school children will erect a monument to the memory of Senator William B. Allison. Today, the eightieth anniversary of the birth of the statesman, the school children of the state will bring voluntary contributions of 10 cents each to the fund for two monuments, one at Des Moines and the other at Washington.

LIMITS NUMBER OF SALOONS

Senate Passes the Alderman Measure.

AMENDMENTS MEET DEFEAT

Bill Limits the Saloons to One for Every Five Hundred of the Population—Efforts to Have It Reduce Number Now in Operation Ends in Failure—Repeal of Corrupt Practices Act Recommended.

St. Paul, March 2.—The senate in committee of the whole passed Senator Alderman's bill limiting the number of saloons to one for every 500 of the population.

Senator Thorpe tried to have the proposed law amended so that it will apply to present conditions in that places which now have more than the limit will be able to reduce their number. Senator Putnam also attempted to have an amendment so that 505 people would not warrant two saloons, but that the major fraction of 500 would be required before another saloon be permitted. Both were defeated and the original bill was recommended to pass.

The bill provides that no more than the present number shall be permitted until the population of a city or town shall be more than 500 for each saloon. Many towns in the northern part of the state will thus be prohibited from having more saloons for many years, while those in the southern part may have more, as saloons are less numerous there.

The public health committee recommended for passage Senator Sundberg's bill restricting the sale of mallein and tuberculin. Druggists are to report the sale of this test for

glanders and tuberculosis to the state live stock board.

Depositors' Protection Fund Plan.

Senator A. L. Hanson of Ada has a depositors' protection fund scheme which he has introduced. It limits the amount of deposits of banks to ten times or eight times the capital and surplus according to location in the country; or in towns of over 50,000. County banks pay one-tenth of 1 per cent tax and city banks one-fifth of 1 per cent to the fund from which depositors of failed banks are to be paid. The fund for country banks is 2 per cent of the total deposits, that for city banks half the amount.

A bill to repeal the section of the code which provides \$200 bounty for any one who catches a horse thief and a bounty of \$2.50 per acre for any person who plants trees on prairie land, are repealed in a bill introduced in the house by W. H. Putnam of Red Wing.

A bill to stir up negligent county attorneys was introduced in the house by John Sangstad of Climax. It permits any citizen or association to employ an attorney to take charge of the prosecution of violators of the liquor laws and provides that the attorney general may prosecute such cases when the county attorney fails, or name an assistant to do it who shall be paid \$10 a day by the county. It also provides that county attorneys who fail to enforce the liquor laws may be fined \$100 to \$500 and imprisoned thirty to ninety days in the county jail.

The senate in committee of the whole recommended the repeal of the entire corrupt practices act. Senator D. S. Hall of Buffalo Lake, the author of the bill repealing the act, said that he is in favor of pure politics, but that he is anxious to do away with the perjury at present involved in making election expense statements.

Used for Trading Purposes.

Stating that the Cass Lake and Bemidji normal school bills had been used for trading purposes for a month and that they might still be used to advantage in that way, Senator Ray G. Farrington of Ortonville opposed the motion of Senator D. M. Gunn of Grand Rapids for a favorable report on the Cass Lake bill.

Senator Frank Clague of Lamberton and Senator S. D. Works of Mankato urged delay, as some of the senators interested were not present.

The Nimocks bill re-enacting the anti-pass law in such form that policemen, firemen and letter carriers, city health officials and members of the salvage corps may accept passes passed the house by a vote of 13 to 33. The bill also permits railway employees to hold non-salaried offices and still retain their passes.

Representative G. A. MacKenzie is the author of a bill which prohibits the use of dogs in taking mink or the use of a shotgun to kill muskrats.

Bankers of the Twin Cities were heard at a joint meeting of the house and senate committees on banks and banking in the senate chambers on a number of banking bills.

Senator L. Thorpe's bill for the creation of a separate banking department and divorcing that function from the public examiner's office has the warm support of the bankers of the whole state.

Senator V. L. Johnson's bill making it a criminal offense to obtain credit by making false statements received the hearty support of the bankers.

The creation of a savings department in state banks was also discussed, as was the gross earnings tax on banks.

TAFT FREE FROM WORRY AND CARE

President Elect Enjoying Himself in Washington.

Washington, March 2.—A rush of morning callers, interrupted for a long walk in the afternoon and attendance at night at a special dinner in his honor by the "Taft Philippine expedition" brought President Elect Taft to within two days of his inauguration with less serious demands on his time than he has experienced during any day since his landing from Panama and New Orleans.

The apparent splendid physical condition, the universal good humor and absence from worry and nervous strain of Mr. Taft make a uniformly gratifying impression on the many statesmen, politicians and friends who are received by him daily. His jovial remark is that "his inaugural address is prepared, his cabinet selected, the inaugural committee is preparing all details for the ceremony on Thursday, and why should he feel otherwise than comfortable?"

The day was begun with an extended conference between the president elect and Senator Knox, at which many important matters pertaining to the next administration were gone over. Mr. Knox is giving much attention to the prospective organization of the state department, over which he is to preside after March 4. Besides, he is being consulted freely by Mr. Taft regarding the affairs of other departments, Mr. Taft having many times remarked that he should give great weight to the judgment of his premier.

The Philippine dinner was arranged by Miss Mabel Boardman and Representative McKinley of Illinois, and was the most pretentious of the enjoyable occasions which this famous party indulge in every year. There were present seven United States senators and twenty-four members of the house of representatives, besides a number of otherwise distinguished personages who sailed to the Orient with Mr. Taft in 1905. The trip attained most of its fame because of the matrimonial accomplishments resulting.

Representative Nicholas Longworth and Miss Alice Roosevelt became betrothed; Representative Bourke Cockran met Miss Ide, daughter of Judge Ide of the Philippine commission, who is now Mrs. Cockran, and Representative Swager Sherry of Kentucky met Miss Mignon Critton of Staten Island, to whom he became engaged.

In Memory of Allison.

Des Moines, Ia., March 2.—Iowa school children will erect a monument to the memory of Senator William B. Allison. Today, the eightieth anniversary of the birth of the statesman, the school children of the state will bring voluntary contributions of 10 cents each to the fund for two monuments, one at Des Moines and the other at Washington.

WEATHER FORECAST

Fair tonight and Wednesday except snow flurries northeast portion tonight; cooler northwest portion tonight and west portion Wednesday.

March 2 in History.

1793—Sam Houston, hero of Tennessee and Texas, born near Lexington, Va.; died at Huntsville, Tex., July 25, 1863.

1905—The right flank of Kuropatkin's army at Mukden turned by the Japanese cavalry, a decisive event in the warfare in Manchuria.

ASTRONOMICAL EVENTS.

Sun sets 5:48, rises 6:27; moon sets 4:58 a. m.; sun's declination 7 degrees south of celestial equator.

THE anti-pass bill has passed the house and under its provisions it permits the issuance of passes to all members of municipal, fire, police and health departments, salvage corps and letter carriers.

AT THE next meeting of the Upper Mississippi Valley Medical Association, which will be held at Staples on April 6th, the state tuberculosis exhibit will be in evidence. The meeting is expected to be one of unusual interest.

THE city of Staples is considering the feasibility of raising the saloon licenses from \$500 to \$700 per annum. The World says that the council is divided on the question but that three out of the five aldermen will favor the resolution when it comes up for final passage.

ST. CLOUD has offered a solution of the much talked of Armour packing plant squabble by tendering a thousand acres of land and \$200,000 in cash for its location adjacent to that city. The twins had better watch out or they will lose one of the largest industrial institutions that ever sought foothold in the northwest.

A BILL is to be introduced in the Montana legislature that will permit of the choice of death by a man condemned to die. If the bill becomes a law the poison route, the hangman's noose or the electric wire will be presented to the criminal thus situated to select his method of exit.

THE much talked of tonnage tax bill is to be reported out by the house tax committee at once and it is confidently expected that the report on the same will be for indefinite postponement, and while it is thought the danger line has been passed there is strong pressure being brought to bear by influential members in the southern part of the state, in which locality the iron product is an unknown quantity, to save the bill and impose the tax.

NONE of the present members of the senate can become a candidate for governor at the next election for the reason that at the last session the salary of that office was raised by their votes. It does not necessarily follow that the next governor should be picked from among this number but under ordinary circumstances the brightest men of a community are chosen to represent it in the legislative halls—or should be, and this is the kind of material good governors are made of. The fact that a man was a member of the law making body that raised the salary, no matter whether he voted for or against the bill, invalidates him for the position.

According to reports received from W. H. Day, international secretary of the Y. M. C. A. Miles City, Mont., will have a \$25,000 Y. M. C. A. building as the result of the work of J. E. Berry, formerly pastor of the People's Congregational church of this city. Mr. Berry, who is in charge of the Y. M. C. A. missionary car among the railroad laborers of the west, was in Miles City and held a revival meeting by which the people of the town were much aroused. Immediately thereafter Mr. Day visited the city and easily raised \$25,000 for the erection of a fine association building.

Chance for Dispatch Readers

In order to test the Dispatch great circulation and its superior advertising value, we have made arrangements with H. P. Dunn, the popular druggist to offer one of his best selling medicines at half-price to anyone who will cut out the following coupon and present it at his store.

COUPON

This coupon entitles the holder to one 50c package of Dr. Howard's specific for the cure of constipation and dyspepsia at half-price 25c. I will refund the money to any dissatisfied customer.

H. P. DUNN.

TWENTY-FIVE CENTS

Dr. Howard's specific for the cure of constipation and dyspepsia is not an unknown remedy. It has made many remarkable cures right here in Brainerd and so positive is druggist H. P. Dunn of its great superiority in curing dyspepsia, constipation sick headache and liver troubles that he will, in addition to selling it at half price, refund the money to anyone whom it does not cure.

If you cannot call at his store, cut out the coupon and mail it with 25 cents, and a 50 cent box of the specific will be sent you by mail, charges paid.

Taming Patti.

Patti was to sing on a certain date at Bucharest, but at the last moment she declined to leave Vienna. It was too cold; snow everywhere; she would not risk catching her death of cold. M. Schumann, the impresario, was in despair until a brilliant inspiration came to him. Quickly he telegraphed to the advance agent in the Roumanian capital: "At whatever cost Patti must receive an ovation at Bucharest station from the Italian aristocracy. Send me by return the following wire: 'The members of the Italian and Roumanian nobility are preparing to give Mme. Patti a magnificent reception. The ministry will be represented. Processions, torches and bands. Telegraph the hour of arrival.'" The advance agent carried out this instruction, and when the telegram dictated to him over the wires arrived in Vienna it was handed to Patti, with the desired effect. "How charming!" she murmured. "What time do we start?"

A Philadelphia lawyer who spends most of his time at his country estate employs a sturdy Irish gardener whose one desire in life is to live until the banner of freedom is unfurled over Ireland.

One evening the lawyer strolled through the grounds of his place and stopped to have a chat with the gardener.

"Michael, do you know that while we are here enjoying the beautiful twilight it is dark midnight in Ireland?" he asked.

"Faith, an' Ol'm not surprised," replied the gardener. "Ireland niver got justice yet."—Judge.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Money Getters.

"Do you think it pays to send our sons to college? Do they obtain the practical experience in money getting that is so necessary in these days?"

"Well, judging from the experience I have had with my son, I should say they did. His practical experience in money getting increases with every letter that I receive from him."

Taming Patti.

Patti was to sing on a certain date at Bucharest, but at the last moment she declined to leave Vienna. It was too cold; snow everywhere; she would not risk catching her death of cold. M. Schurmann, the impresario, was in despair until a brilliant inspiration came to him. Quickly he telegraphed to the advance agent in the Roumanian capital: "At whatever cost Patti must receive an ovation at Bucharest station from the Italian aristocracy. Send me by return the following wire: 'The members of the Italian and Roumanian nobility are preparing to give Mme. Patti a magnificent reception. The ministry will be represented. Processions, torches and bands. Telegraph the hour of arrival.'" The advance agent carried out this instruction, and when the telegram dictated to him over the wires arrived in Vienna it was handed to Patti, with the desired effect. "How charming!" she murmured. "What time do we start?"

OFFICERS' CHARADE.

One of the Company Was an Expert at the Game.

A general arrived from St. Petersburg in a garrison town in the interior of Russia to hold an inspection of the troops. After the review he stepped into the officers' mess room, where he noticed on the counter a row of bottles, to which, instead of usual labels, white tickets, with a single letter of the alphabet on each, were affixed. The bottles stood in rank and file and in alphabetical order.

"What does this mean?" the general asked the lieutenant who was showing him around.

"That is an officers' charade, your excellency," replied the officer, rather embarrassed.

The general continued his inquiries and elicited the following information: "Each bottle contains a different kind of liquor. At the meeting of the officers' club one of us mixes some of these varieties in a glass so that the initials spell a name, and the older and more experienced members of the club after tasting it guess what it is composed of and name the word intended."

"Very original idea," remarked the general. "And are you able to make a guess of that kind?"

"If it is your excellency's pleasure, I will try," the lieutenant replied.

The general went to the counter and mixed a glass, while the officer stood at the other end of the room with his face to the wall.

"Now, guess what this means," said the general as he handed the glass to the officer.

The latter drank it at one gulp, smacked his tongue and replied: "That was 'Anna,' your excellency."

"Bravo!" exclaimed the general. "It requires a lot of practice, eh?"

"Your excellency, 'Anna' is easy enough, but there is a captain in our corps who can even guess 'Nebuchadnezzar!'"

His Wonderful Invention.

Australia, as is well known, is infested with rabbits, a most destructive and multitudinous pest. Not long ago a man invented the following plan: You go out into the field from which the rabbits are to be removed. You saw down a tree, and on the slant of the stump you paint a black spot. Then you keep very quiet, so that the rabbits will come back from their burrows and feed as usual. When a large enough number has collected you clap your hands sharply. The effect will be electric. The rabbits will jump in haste for their burrows. At least one is sure to mistake the black spot for his hole and make for it. Invariably he will dash his brains out. The process, repeated often enough, warranted to exterminate the rabbit forever.

The reports do not say whether there are any rabbits left in Australia.

"Certainly," replied Senator Sorghum. "Answering charges these days is easy. All you've got to do is say, 'You're another.'"—Washington Star.

RESIGNED

C. H. Paine Elected by Unanimous Vote to Succeed Him in Second Ward

LIQUOR LICENSES ASKED FOR
Three Were Granted, One Referred Back and One Transferred Held Up

The city council met in regular session Monday evening with President Twohey in the chair, a bare quorum being present. Deputy City Clerk Bess K. Treglawney acted as city clerk in the absence of H. J. Spencer, handling the business with the ease of a veteran. At roll call, the following answered to their names: Aldermen Deickhaus, Wise, Vaughn, Zakariasen and Halladay and President Twohey.

The minutes of the last regular and adjourned meetings were read and approved.

The report of the clerk of the municipal court was read showing two arrests for violation of city ordinances, and \$122.00 fines collected and \$18.45 fee collected. Total, \$140.65. The report was duly approved.

The report of the chief of police and of the city clerk were read and approved.

The report of Dr. O. T. Batcheller, health officer, was presented, showing the work done by him during the past two months. It was read, accepted and referred to the health, sewer and police committee in conjunction with the city attorney, to take action on the health officer's recommendations.

The Mayor and Alderman Johnson came in.

The city pay rolls were then allowed as follows:

City officers.....	\$ 283 33
Police.....	362 00
Fire department.....	140 00
Firemen.....	163 50
Street employees.....	24 00

The report of the city treasurer was on motion received and approved as follows:

Bal. Feb. 1st, Rec. Dis. Bal.	3-1-09
Current expense \$ 573.19	\$ 689.20
Electric lights 9356.45	3229.56
Miscellaneous 2671.28	8000.00
	5698.00

The report of the street committee that J. M. Quinn be granted a rebate of \$8.00 on overcharge on sidewalk, was on motion accepted.

The bill of A. L. Hoffman & Co. for nails delivered to Mahlum's mill was on motion referred to the purchasing committee as was the bill of O. G. Graham for water for city clerk's office from January 1, 1908, to Feb. 6, 1909, neither bill having received the O. K. of the purchasing committee.

The bill of G. W. Chadbourne for the premium of \$12.00 on \$300.00 insurance on the contracts of the city clerk's office and the city council chambers, was referred to the purchasing committee.

A bill of McGinn & Smith for supplies furnished Chas. Ralstad, under quarantine, O. K'd by Dr. Beise, was on motion referred to the committee on health, sewers and police.

The bill of R. K. Whiteley for work on the Fourth district sewer was laid on the table.

Alderman Halladay reported that the top of the general sewer needed repairs, and on motion the street commissioner was instructed to ascertain what was needed to be done and the necessary cost thereof, and report at the next meeting.

There was a very vigorous kick made on the blocking of Ninth, Front and Laurel streets by ties etc., and on motion the matter was referred to the mayor.

A communication from Jens Molstad asking permission to repair his building at 518 Laurel Street was referred to the fire committee to report at next meeting.

The resignation of H. A. Lyddon as alderman from the Second ward was presented and read and on motion was accepted.

On motion of Alderman Johnson the council proceeded to take a formal vote for alderman to succeed H. A. Lyddon. Alderman Johnson then placed C. H. Paine in nomination. Mr. Paine received every vote cast and was declared duly elected. He was present and was called on for a speech but said that, like the woman who received a marriage proposal it was "too sudden."

The appointment of B. K. Treglawney as deputy city clerk and deputy clerk of the municipal court was presented and approved.

The liquor license applications of Henry Betzold, John Hughes and John Parsons and John Franzen, were presented and on roll call the license of John Hughes and Henry Betzold were granted. The bond of John Parsons and John Franzen was declared insufficient by the city attorney, there being no designation of the place at which the liquor was to be sold.

The application of Chas. H. Rattigan, manager of the Ransford hotel, for liquor license at the hotel was presented. City Attorney Ryan found the bond defective and it was referred back for correction.

The petition of Geo. Rappel for permission to transfer his liquor license to Andrew Jorgenson, was presented. No bond accompanied it and the matter was referred back to the applicants.

A motion was made by Alderman Halladay that the city clerk be instructed to refer all future liquor license applications to the police committee for investigation before action by the council.

A request was made by President Twohey in behalf of the board of education for a district sewer in the third ward. On motion it was referred to the sewer committee in conjunction with the mayor and the aldermen of that ward.

On motion the council then adjourned.

Soldier Balks Death Plot

PREPARE THIS CURE YOURSELF

Kidneys Relieved by a Home Mixture Anyone Can Prepare

TAKE CARE OF BACKACHE

No Sufferer of Kidney or Bladder Trouble or Rheumatism Should Miss This

Here is a prescription that anyone can mix at home. Any good prescription pharmacy can supply the ingredients named at little cost; being composed of vegetable extracts, it is harmless and inexpensive. Best of all it does its work well, relieving even the worst forms of bladder trouble, frequent urination, backache, kidney complaint, and by its direct action upon the eliminative tissue of the kidneys, makes these most vital organs rid the blood and system of waste matter and uric acid which causes rheumatism.

Here it is; try it, if you suffer. Fluid Extract of Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup of Sarsaparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

Former sufferers often state that one week's use shows curative results in nearly every instance, and such symptoms as lame back, frequent desire to urinate, pain in bladder and even chronic rheumatism are generally relieved within a few days, the pain and swelling diminishing with each dose.

A tickling or dry cough can be quickly loosened with Dr. Shoop's Cough Remedy. No opium, no chloroform, nothing unsafe or harsh. Sold by H. P. Dunn. ttf

"Sure an' Oi overslept" meself," said Bridget.

"That is no excuse," said the mistress. "I gave you an alarm clock only yesterday."

"Oi know that, mimm."

"Did you wind it up?"

"Oi did."

"And didn't it go off?"

"Sure an' it did that. It made a terrible noise."

"Then why didn't you get up?"

"Sure, mimm," responded Bridget tearfully, "it was that t'ing that's made all the trouble. Oi never shlep' a wink all night waitin' for it to go off, an' when it did Oi was that tired Oi couldn't move."—Harper's Weekly.

NEW MEMBERS TAKE THEIR SEATS

Members of Board of Education Elected Last Meeting Qualified Monday Night

TO CHANGE TO HIGH PRESSURE

This is Recommendation of Committee Concerning Proposed Lowell Heating Plant

The board of education held its regular monthly meeting at the high school building Monday evening, all the members being present except Geo. D. LaBar. John Larson, elected at last meeting to fill the vacancy caused by the resignation of W. W. Hutchins, and Hugo Kaatz chosen to succeed Thomas Halladay, resigned, were present and qualified and took their seats.

The superintendent's reports of the schools and of the book room were received and approved.

The building committee presented a report recommending a change from the proposed low pressure heating system in the Lowell building, to high pressure. This was done in order that there might be high pressure steam for driving a ventilating fan, as well as to provide a system which would permit of expansion should there be demand for added rooms in the building.

The committee on printing was instructed to advertise in the St. Paul Pioneer Press, the Minneapolis Journal, the Duluth Herald and one local paper for bids for the construction of the proposed plant.

The fuel committee was instructed to purchase 45 cords of dry wood.

The teachers committee reported the engagement of Miss Hazel Neill to finish out the present year as science teacher.

The finance committee reported that it had looked up the treasurer's bonds which were referred to it the last meeting and found them all right.

The truancy officer reported as follows:

No. calls made.....	30
No. found out of school.....	18
No. truants found.....	12
No. started to school.....	6
Washington building.....	6
Lincoln building.....	6
Whittier building.....	4
Lowell building.....	1
Harrison building.....	1
Total.....	18

Bills were allowed as follows:

Teachers pay roll.....	\$ 3 449 26
Janitors and truant officer.....	375 00
Other bills.....	412 57
Total.....	\$ 4 236 83

A resolution was adopted authorizing a loan at the First National bank to tide the schools over until the March settlement.

The board then adjourned.

THE SUMMIT OF FUJI.

When Morning Breaks Over the Very Top of Japan.

Suddenly a spark, a flame and then a burst of fire, and lo and behold, the rosy morning is awake once more on Fuji's pearly crest while Japan, below, is yet enveloped in the filmy mists of night.

The pilgrims fall on their knees and bow their heads to the ground in adoration, and with much fingering of rosaries the plaintive cadence of their prayers rises like a lamentation to the heavens above.

At Benares, the sainted city of the Hindoos, as the sun rises each morning across the holy Ganges the prayers of the bathing multitude are as the roaring of the sea. But even this, one of the greatest and most stirring religious spectacles of the world, is not more picturesque than that little band of pilgrims 'twixt heaven and earth, high up in the blue profound, on the very top of Japan, kneeling in praise before the great orb which is the emblem of their empire.

Never to have seen sunrise from the summit of Fuji is never to have really seen Japan.

The kindly nature which made this lovely land has surpassed all its other efforts in the lavish profusion with which it has scattered its favors around the sacred mountain. Rippling rills and roaring rivers, dancin' cascades and thundering waterfalls, feathery woods and deep forests there are on every side, but of all these glories the most enchanting are the lakes which lie embosomed like flashing jewels among the hills.

Of them all Shoji and Motosu are the most beautiful, the latter excelling in the exquisite sapphire blue of its waters and its dainty, delicate beauty all other lakes in Japan and challenging comparison with the fairest waters of the world.—Herbert G. Ponting in Metropolitan Magazine.

Punishment in Effigy.

Punishment in effigy was legally practiced in France and with great solemnity up to the time of the first revolution. If the man condemned escaped, a dummy was put up in his cell and the entire routine of the law allowed to take its course. The warrant was read to it, and on the day appointed it was conducted to the scaffold in the presence of all the legal functionaries and with all the circumstance of the law. Sometimes the same person was executed in effigy simultaneously in several cities, but that did not exempt him from actual punishment should he be afterward caught.

What Constitutes Good Job Printing?

The chances are that you have asked yourself the above question many times and maybe you have not had it answered fully to your own satisfaction.

Good Job Printing, according to the best authorities, requires taste, type and skill, combined to produce a piece of work which is both pleasing to the eye and gives due prominence to the articles or occupation to be advertised.

RESIGNED

C. H. Paine Elected by Unanimous Vote to Succeed Him in Second Ward

LIQUOR LICENSES ASKED FOR

Three Were Granted, One Referred Back and One Transferred Held Up

The city council met in regular session Monday evening with President Twohey in the chair, a bare quorum being present. Deputy City Clerk Bess K. Treglawney acted as city clerk in the absence of H. J. Spencer, handling the business with the ease of a veteran. At roll call, the following answered to their names: Aldermen Deickhaus, Wise, Vaughn, Zakariassen and Halladay and President Twohey.

The minutes of the last regular and adjourned meetings were read and approved.

The report of the clerk of the municipal court was read showing two arrests for violation of city ordinance, and \$122.00 fines collected and \$18.65 fee collected. Total, \$140.65. The report was duly approved.

The report of the chief of police and of the city clerk were read and approved.

The report of Dr. O. T. Batcheller, health officer, was presented, showing the work done by him during the past two months. It was read, accepted and referred to the health, sewer and police committee in conjunction with the city attorney, to take action on the health officer's recommendations.

The Mayor and Alderman Johnson came in.

The city pay rolls were then allowed as follows:

City officers.....	\$ 283 33
Police.....	362 00
Fire department.....	140 00
Firemen.....	163 50
Street employees.....	24 00

The report of the city treasurer was on motion received and approved as follows:

Sal.	3-1-49
Feb. 1st. Rec.	\$ 233 33
Current expense	\$ 233 33
Electric lights	\$ 233 33
Miscellaneous	\$ 233 33
Total	\$ 933 32

The report of the street committee that J. M. Quinn be granted a rebate of \$8.00 on overcharge on sidewalk, was on motion accepted.

The bill of A. L. Hoffman & Co. for nails delivered to Mahlum's mill was on motion referred to the purchasing committee as was the bill of O. G. Graham for water for city clerk's office from January 1, 1908, to Feb. 6, 1909, neither bill having received the O. K. of the purchasing committee.

The bill of G. W. Chadbourne for the premium of \$12.00 on \$300.00 insurance on the contracts of the city clerk's office and the city council chambers, was referred to the purchasing committee.

A bill of McGinn & Smith for supplies furnished Chas. Ralstad, under quarantine, O. K'd by Dr. Beebe, was on motion referred to the committee on health, sewers and police.

The bill of R. K. Whiteley for work on the Fourth district sewer was laid on the table.

Alderman Halladay reported that the top of the general sewer needed repairs, and on motion the street commissioner was instructed to ascertain what was needed to be done and the necessary cost thereof, and report at the next meeting.

There was a very vigorous kick made on the blocking of Ninth, Front and Laurel streets by ties etc., and on motion the matter was referred to the mayor.

A communication from Jens Molstad asking permission to repair his building at 518 Laurel Street was referred to the fire committee to report at next meeting.

The resignation of H. A. Lyddon as alderman from the Second ward was presented and read and on motion was accepted.

On motion of Alderman Johnson the council proceeded to take a formal vote for alderman to succeed H. A. Lyddon. Alderman Johnson then placed C. H. Paine in nomination. Mr. Paine received every vote cast and was declared duly elected. He was present and was called on for a speech but said that, like the woman who received a marriage proposal it was "too sudden."

The appointment of B. K. Treglawney as deputy city clerk and deputy clerk of the municipal court was presented and approved.

The liquor license applications of Henry Betzold, John Hughes and John Parsons and John Franzsen, were presented and on roll call the license of John Hughes and Henry Betzold were granted. The bond of John Parsons and John Franzsen was declared insufficient by the city attorney, there being no designation of the place at which the liquor was to be sold.

The application of Chas. H. Rattigan, manager of the Ransford hotel, for liquor license at the hotel was presented. City Attorney Ryan found the bond defective and it was referred back for correction.

The petition of Geo. Rappel for permission to transfer his liquor license to Andrew Jorgenson, was presented. No bond accompanied it and the matter was referred back to the applicants.

A motion was made by Alderman Halladay that the city clerk be instructed to refer all future liquor license applications to the police committee for investigation before action by the council.

A request was made by President Twohey in behalf of the board of education for a district sewer in the third ward. On motion it was referred to the sewer committee in conjunction with the mayor and the aldermen of that ward.

On motion the council then adjourned.

Soldier Bids Death Plot

It seemed to J. A. Stone, a civil war veteran of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds. For so ere colds, obstinate coughs, hemorrhages, asthma, and to prevent pneumonia it's unrivaled. 50c and \$1.00. Trial bottle free. Guaranteed by H. P. Dunn.

PREPARE THIS CURE YOURSELF

Kidneys Relieved by a Home Mixture Anyone Can Prepare

TAKE CARE OF BACKACHE

No Sufferer of Kidney or Bladder Trouble or Rheumatism Should Miss This

Here is a prescription that anyone can mix at home. Any good prescription pharmacy can supply the ingredients named at little cost; being composed of vegetable extracts, it is harmless and inexpensive. Best of all it does its work well, relieving even the worst forms of bladder trouble, frequent urination, backache, kidney complaint, and by its direct action upon the eliminative tissue of the kidneys, makes these most vital organs rid the blood and system of waste matter and uric acid which causes rheumatism.

Here it is; try it, if you suffer. Fluid Extract of Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup of Sarsaparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

Former sufferers often state that one week's use shows curative results in nearly every instance, and such symptoms as lame back, frequent desire to urinate, pain in bladder and even chronic rheumatism are generally relieved within a few days, the pain and swelling diminishing with each dose.

A tickling or dry cough can be quickly loosened with Dr. Shoop's Cough Remedy. No opium, no chloroform, nothing unsafe or harsh. Sold by H. P. Dunn.

Rare Combinations.

"The time, the place and the girl—how seldom we see them together!" "And another rare combination is the man, the scheme and the coin."—Louisville Courier-Journal.

A Reasonable Excuse.

"Bridget," said Mrs. Subbubs sternly, "breakfast is half an hour late again."

"Yes, mím," returned Bridget meekly.

"What excuse have you to offer? You know I told you that Mr. Subbubs must catch that early train, and punctuality at breakfast is absolutely necessary," said the lady.

"Sure an' Oi overslept," meslíz," said Bridget.

"That is no excuse," said the mistress. "I gave you an alarm clock only yesterday."

"Oi know that, mím."

"Did you wind it up?"

"Oi did."

"And didn't it go off?"

"Sure an' it did that. It made a terrible noise."

"Then why didn't you get up?"

"Sure, mím," responded Bridget tearfully, "it was that 'ting that's made all the trouble. Oi never sleep a wink all night waitin' for it to go off, an' whin it did Oi was that tired Oi couldn't move."—Harper's Weekly.

NEW MEMBERS TAKE THEIR SEATS

Members of Board of Education Elected Last Meeting Qualified Monday Night

TO CHANGE TO HIGH PRESSURE

This Is Recommendation of Committee Concerning Proposed Lowell Heating Plant

The board of education held its regular monthly meeting at the high school building Monday evening, all the members being present except Geo. D. LaBar. John Larson, elected at last meeting to fill the vacancy caused by the resignation of W. W. Hutchins, and Hugo Kaatz chosen to succeed Thomas Halladay, resigned, were present and qualified and took their seats.

The superintendent's reports of the schools and of the book room were received and approved.

The building committee presented a report recommending a change from the proposed low pressure heating system in the Lowell building, to high pressure. This was done in order that there might be high pressure steam for driving a ventilating fan, as well as to provide a system which would permit of expansion should there be demand for added rooms in the building.

The committee on printing was instructed to advertise in the St. Paul Pioneer Press, the Minneapolis Journal, the Duluth Herald and one local paper for bids for the construction of the proposed plant.

The fuel committee was instructed to purchase 45 cords of dry wood.

The teachers committee reported the engagement of Miss Hazel Neill to finish out the present year as science teacher.

The finance committee reported that it had looked up the treasurer's bonds which were referred to it the last meeting and found them all right.

The truancy officer reported as follows:

No. calls made.....	30
No. found out of school.....	18
No. truants found.....	12
No. started to school—	
Washington building.....	6
Lincoln building.....	6
Whittier building.....	4
Lowell building.....	1
Harrison building.....	1
Total.....	18

Bills were allowed as follows:

Teachers pay roll.....	\$ 3 449 26
Janitors and truancy officer.....	375 00
Other bills.....	412 57
Total.....	\$ 4 236 83

A resolution was adopted authorizing a loan at the First National bank to tide the schools over until the March settlement.

The board then adjourned.

Motor Car For a Baseball Team's Use.

The time is coming when the automobile will be used for practically all purposes where a speedy method of transportation over roads of all kinds is desired. A hint of the coming of this time is afforded by the action of the Indianapolis Baseball club in purchasing a twenty-four passenger motor bus. It will be used to carry the players to and from the ball grounds and to and from trains. Its adaptability for other uses—for making trips to nearby towns, for example—is obvious.

Nicotine.

"If excessive smoking alone could cause heart degeneration," writes a correspondent of the London Mail, "such cases would be common instead of extremely rare. The fact is that only an almost infinitesimal amount of nicotine is absorbed in smoking. The only reason all smokers are not killed at once is that the nicotine is destroyed in the combustion of the leaf."

THE SUMMIT OF FUJI.

When Morning Breaks Over the Very Top of Japan.

Suddenly a spark, a flame and then a burst of fire, and lo and behold, the rosy morning is awake once more on Fuji's pearly crest while Japan, below, is yet enveloped in the filmy mists of night.

The pilgrims fall on their knees and bow their heads to the ground in adoration, and with much fingering of rosaries the plaintive cadence of their prayers rises like a lamentation to the heavens above.

At Benares, the sainted city of the Hindoos, as the sun rises each morning across the holy Ganges the prayers of the bathing multitude are as the roaring of the sea. But even this, one of the greatest and most stirring religious spectacles of the world, is not more picturesque than that little band of pilgrims 'twixt heaven and earth, high up in the blue profound, on the very top of Japan, kneeling in prayer before the great orb which is the emblem of their empire.

Never to have seen sunrise from the summit of Fuji is never to have really seen Japan.

The kindly nature which made this lovely land has surpassed all its other efforts in the lavish profusion with which it has scattered its favors around the sacred mountain. Rippling rills and roaring rivers, dancing cascades and thundering waterfalls, feathery woods and deep forests there are on every side, but of all these glories the most enchanting are the lakes which lie embosomed like flashing jewels among the hills.

Of them all Shoji and Motosu are the most beautiful, the latter excelling in the exquisite sapphire blue of its waters and its dainty, delicate beauty all other lakes in Japan and challenging comparison with the fairest waters of the world.—Herbert G. Ponting in Metropolitan Magazine.

Punishment in Effigy.

Punishment in effigy was legally practiced in France and with great solemnity up to the time of the first revolution. If the man condemned escaped, a dummy was put up in his cell and the entire routine of the law allowed to take its course. The warrant was read to it, and on the day appointed it was conducted to the scaffold in the presence of all the legal functionaries and with all the circumstance of the law. Sometimes the same person was executed in effigy simultaneously in several cities, but that did not exempt him from actual punishment should he be afterward caught.

TWO CHILDREN SUFFOCATED

Home of a Minnesota Settler Destroyed by Fire.

Duluth, March 2.—The home of A. C. Nelson in Hebron township, twenty-five miles from Aitkin, was burned and two of the three children of Mr. and Mrs. Nelson were suffocated. Mr. Nelson was away from home at work and the day being pleasant Mrs. Nelson was drawing wood from a pile a short distance from the house. When she entered the house it was on fire and the rooms were filled with smoke. She reached the baby, but it was dead, as was also the other child.

Fallieres' Assailant Sentenced.

Favors Equal Suffrage.

Pierre, S. D., March 2.—The senate has passed the house resolution granting a popular vote on a constitutional amendment to provide equal suffrage at the next general election.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, rapid liver with indigestion. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensary; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authorities and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

SOOTHING THE WAVES.

Oiling the Waters When the Seas Are Running High.

When the captain of a wave beaten ship pours oil upon the waters he does not empty a barrel of kerosene over the side. He has somebody stich up three or four cotton bags, which he fills first with oakum and then with oil, usually equal parts of fish oil and kerosene. The bags are then tied tightly at the tops and pricked all over with a sail needle to permit the oil to exude and are hung from the boat davits and weather chains to drip their contents on the raging billows. The bags must not be allowed to get empty, but must be refilled every two hours. For six bags ten gallons of oil are used in thirty hours. Sometimes if it is very cold the oil congeals and will not run out through the holes fast enough, and the mouth of the bag is then loosened to let it escape in that way. Its effect is magical on a rough sea. A huge comb will arise, threatening to bury the laboring vessel under tons of water, but will strike a patch of oil no larger than a common dining table and subside in an instant into a smooth, round swell, which the ship rides like a cork.

The use of oil is also a valuable aid in wearing ship in a gale and high seas. A few gallons of paint oil over the lee quarter enable the vessel to perform the maneuver in perfect safety without taking a drop of water on board. When a boat ships so much water that it is impossible to get the oil bags slung in position without running the risk of being swept overboard an ordinary bed sheet saturated with paint oil tied to a rope and allowed to float will soon calm the seas sufficiently to permit men to move about the decks safely. Paint oil is agreed to be the best to use, rape seed oil and porpoise oil rank next, but kerosene is not satisfactory unless mixed with some other oil.—New York Press.

SCHOOLS IN RIFLE MATCH.

National Association Arranges Competition Open to Teams of Ten.

An interesting competition for school-boys has been arranged by the executive committee of the National Rifle association at Washington. It will be known as the interscholastic rifle match and will be for the interschool gallery championship of the United States.

The match will be shot on the galleries of the various schools which enter, the shooting taking place on any date between April 12 and 24. It will be open to teams of ten pupils from any public school, preparatory high school or private school not conferring degrees. Where the school has a club affiliated with the National Rifle association no entrance fee will be charged. Other schools may enter teams on the payment of \$2. The distance will be fifty feet, and the National Rifle association target with a one inch bullseye will be supplied by the National Rifle association.

Each string will consist of five shots, and ten shots will be fired in a standing position and ten in a prone position, with two sighting shots for each position. Any 22 caliber rifle may be used which has sights in front of the hammer. The competition is open to bona fide scholars only, and a certificate to this effect must be filed with Lieutenant Albert S. Jones, secretary of the National Rifle association, Washington, which organization will designate a judge to represent it at each school. The prize will be a handsome trophy, to be held by the winning school for one year, and medals to the individual members of the teams.

AMID SCENES OF CONFUSION

The Lower House of Congress Transacts Business.

DIFFICULT TO MAINTAIN ORDER

Speaker Compelled to Constantly Use

His Gavel and Admonish Members to Cease Conversation—Appalachian and White Mountain Forest Reserve Bill Passed by Small Majority—Conference Reports on Many Measures Agreed To.

Washington, March 2.—Transacting its business amid scenes of great confusion, the house gave every evidence that the present congress is drawing to a close.

In his endeavor to maintain a semblance of order the speaker was constantly pounding his gavel and admonishing members to cease conversation.

After two hours of stormy debate the so-called Appalachian and White mountain forest reserve bill, amended so as to apply its provisions to all states, was passed by a narrow majority of ten. Measures of this character had been before the house in one shape or another for many years and the day's action witnessed the partial consummation of a policy in connection with the conservation of the forests unceasingly pressed by its advocates. By the terms of the bill the national forest reservation commission is created for the purpose of acquiring by purchase or condemnation the lands needed to promote or to protect the navigability of streams on whose watershed they lie. The house bill is a substitute for that of the senate and the measure will now go to conference.

The final conference reports on the army, naval and fortifications appropriation bills were agreed to and the measures will now go to the president for signature. In addition to this a vast amount of miscellaneous business was disposed of. A resolution, designed as a concession to the co-called insurgents amending the rules so as to provide one day each week for a call of committees, gave rise to immediate discussion and was adopted by the narrow margin of six, the vote standing 168 to 162.

After a short discussion the house almost unanimously insisted on its disagreement with the senate on the amendment to the legislative, executive and judicial appropriation bill raising the salary of the president, vice president, the speaker, and United States judges and the bill for the third time went back to conference.

Gestures.

"It will help actors in gesturing correctly," said a playwright, "to remember that all gesticulation is an inheritance from our simian ancestors. We show abhorrence best by the same movements with which we would repel a wet dog. We show affection by the movements with which we would receive a loved physical object. We move our heads from side to side to signify 'no' because that was the way our monkey ancestors avoided a proffered and undesirable morsel of food. We nod for 'yes' because that was the way our monkey forbears reached for an acceptable morsel."

JEFFRIES STILL IN DOUBT

Not Certain That He Can Get Into Condition to Fight Johnson.

Chicago, March 2.—"I will fight Jack Johnson for the heavyweight championship of the world if I am able to get into condition to do myself justice," said James J. Jeffries, who stopped off here on his way to New York.

"The story from Omaha that I said I would fight Johnson as soon as I finished my vaudeville engagement is not true," continued Jeffries. "I have never said definitely I would fight Johnson and I am not ready to do so now. My future depends upon my ability to get into condition and I am not certain yet that I will be able to do myself justice if I return to the ring. I must have more time to analyze my condition before I will make any definite plans."

The giant pugilist appeared to be in excellent condition but somewhat heavy. Jeffries was accompanied by Mrs. Jeffries and Sam Berger, his sparring partner.

SOUTH DAKOTA RATE LAW

Judge Carland Grants Temporary Injunction Against It.

Sioux Falls, S. D., March 2.—Judge Carland in the United States court filed an order granting a temporary injunction in the case involving the 2-cent passenger fare rate law recently enacted by the state legislature. The injunction restrains the state board of railroad commissioners, the attorney general and state's attorneys of the various counties through which the lines of railroad run from attempting to compel the railroad companies to comply with the law in controversy. All passengers also are enjoined from instituting any action against the railroad companies for violating the law and from demanding that they be carried at the rate fixed by the new law between points within the boundaries of South Dakota.

SENATE PASSES MEASURE

Disposes of the Sundry Civil Appropriation Bill.

Washington, March 2.—The sundry civil bill, appropriating \$139,000,000, and the military academy bill, carrying an appropriation of \$2,541,000, were passed by the senate.

Senator Bailey, calling attention to communications from heads of departments in response to senate resolutions calling for papers and information, stated that such replies received from the secretaries of the treasury, commerce and labor and war and navy, had been sent "by direction of the president," which he declared was inferentially a denial of the right of congress to demand such information without the intervention of the president. Presenting a resolution directing that all such communications be returned to the heads of departments from whom they had been received, Mr. Bailey attempted to secure its passage, which was opposed by Mr. Aldrich and other senators on the ground that the orderly way to dispose of a matter of such importance was by sending it to a committee. After debate it was allowed to lie on the table for the day.

DESIRES TO QUIT WITH ROOSEVELT

Colored Collector of Customs Tenders Resignation.

TO TAKE EFFECT MARCH 4

Dr. William D. Crum's Retirement

Will Avoid a Situation That Threatened to Cause President Elect Taft Considerable Embarrassment—No Appointment Made by President Roosevelt Caused So Much Discussion as That of the Colored Man.

Charleston, S. C., March 2.—With the resignation of Dr. William D. Crum as collector of customs at this port, to take effect March 4, a situation which threatened to cause President Elect Taft considerable embarrassment is avoided. No appointment made by President Roosevelt has given rise to more discussion than that of Dr. Crum, whose appointment was vigorously opposed because of the fact that he is a negro. A long hard fight against his confirmation was made by Senator Tillman and others when he was first named in 1903, and within the past few weeks, following his reappointment, Senator Tillman conducted a successful filibuster against his confirmation.

Dr. Crum says that no pressure has been brought to bear upon him now to cause him to resign, but that he does so in part because he wishes to save Mr. Taft, for whom he entertains great respect, from any possible embarrassment as to his reappointment and chiefly because he feels that he has been especially identified with

President Roosevelt's administration and he wishes to retire with his chief. In his letter to President Roosevelt, after thanking the president for appointing him six years ago and for renominating him for a second term and wishing him "God Speed and a long life," he says in part:

"Since assuming the duties of this position I have striven diligently to justify the confidence imposed in me. During all these years, so far I know, not a single charge has been brought against my moral character, or a single adverse criticism made in regard to the performance of my official duties. I wish to further add that those employed in this office under me, composed of both races, have been at all times courteous, kind and interested, and we have all worked together to make the office work successful and satisfactory.

"During all these years I have been treated with kindness and courtesy by all those who have had official business with the office and have not had unpleasant contact with any one in the city."

SAYS CONFESSION IS FALSE

Negro Claims It Was Forced From Him by Police.

Des Moines, Ia., March 2.—John Junken, the negro who confessed Sunday to the murder of Clara Rosen at Ottumwa several weeks ago, has declared his confession an invention forced from him by the police. He says he will fight prosecution.

An application is to be filed by the attorneys of Junken to have the trial in this city instead of Ottumwa. They claim that there is danger of lynching and that the "mob spirit" is so strong in Ottumwa that they fear for the prisoner's life. The grand jury of Wapello county meets today and the case will be taken up instantly. The prisoner will remain in Des Moines until called for by the court at Ottumwa.

Terrific Storm at Rome.

Rome, March 2.—A terrific storm broke over Rome, doing much damage to property and causing the death of one person. The roof of the railroad station was partially destroyed and travelers inside the building were greatly frightened. A portion of the roof in falling tore off the top of the Michael Angelo Cypress tree in the court of the church of Santa Maria Angeli.

TWO CHILDREN SUFFOCATED

Home of a Minnesota Settler Destroyed by Fire.

Duluth, March 2.—The home of A. C. Nelson in Hebron township, twenty-five miles from Aitkin, was burned and two of the three children of Mr. and Mrs. Nelson were suffocated. Mr. Nelson was away from home at work and the day being pleasant Mrs. Nelson was drawing wood from a pile a short distance from the house. When she entered the house it was on fire and the rooms were filled with smoke. She reached the baby, but it was dead, as was also the other child.

Fallieres' Assailant Sentenced.

Favors Equal Suffrage.

Pierre, S. D., March 2.—The senate has passed the house resolution granting a popular vote on a constitutional amendment to provide equal suffrage at the next general election.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensary; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authorities and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

SOOTHING THE WAVES.

Oiling the Waters When the Seas Are Running High.

When the captain of a wave beaten ship pours oil upon the waters he does not empty a barrel of kerosene over the side. He has somebody stitch up three or four cotton bags, which he fills first with oakum and then with oil, usually equal parts of fish oil and kerosene. The bags are then tied tightly at the tops and pricked all over with a sail needle to permit the oil to exude and are hung from the boat davits and weather chains to drip their contents on the raging billows. The bags must not be allowed to get empty, but must be refilled every two hours. For six bags ten gallons of oil are used in thirty hours. Sometimes if it is very cold the oil congeals and will not run out through the holes fast enough, and the mouth of the bag is then loosened to let it escape in that way. Its effect is magical on a rough sea. A huge comber will arise, threatening to bury the laboring vessel under tons of water, but will strike a patch of oil no larger than a common dining table and subside in an instant into a smooth, round swell, which the ship rides like a cork.

The use of oil is also a valuable aid in wearing ship in a gale and high seas. A few gallons of paint oil over the lee quarter enable the vessel to perform the maneuver in perfect safety without taking a drop of water on board. When a boat ships so much water that it is impossible to get the oil bags slung in position without running the risk of being swept overboard an ordinary bed sheet saturated with paint oil tied to a rope and allowed to float will soon calm the seas sufficiently to permit men to move about the decks safely. Paint oil is agreed to be the best to use, rape seed oil and porpoise oil rank next, but kerosene is not satisfactory unless mixed with some other oil.—New York Press.

SCHOOLS IN RIFLE MATCH.

National Association Arranges Competition Open to Teams of Ten.

An interesting competition for school boys has been arranged by the executive committee of the National Rifle association at Washington. It will be known as the interscholastic rifle match and will be for the interschool gallery championship of the United States.

The match will be shot on the galleries of the various schools which enter, the shooting taking place on any date between April 12 and 24. It will be open to teams of ten pupils from any public school, preparatory high school or private school not conferring degrees. Where the school has a club affiliated with the National Rifle association no entrance fee will be charged. Other schools may enter teams on the payment of \$2. The distance will be fifty feet, and the National Rifle association target with a one inch bulls-eye will be supplied by the National Rifle association.

Each string will consist of five shots, and ten shots will be fired in a standing position and ten in a prone position, with two sighting shots for each position. Any 22 caliber rifle may be used which has sights in front of the hammer. The competition is open to bona fide scholars only, and a certificate to this effect must be filed with Lieutenant Albert S. Jones, secretary of the National Rifle association, Washington, which organization will designate a judge to represent it at each school. The prize will be a handsome trophy, to be held by the winning school for one year, and medals to the individual members of the teams.

AMID SCENES OF CONFUSION

The Lower House of Congress Transacts Business.

DIFFICULT TO MAINTAIN ORDER

Speaker Compelled to Constantly Use His Gavel and Admonish Members to Cease Conversation—Appalachian and White Mountain Forest Reserve Bill Passed by Small Majority—Conference Reports on Many Measures Agreed To.

Washington, March 2.—Transacting its business amid scenes of great confusion, the house gave every evidence that the present congress is drawing to a close.

In his endeavor to maintain a semblance of order the speaker was constantly pounding his gavel and admonishing members to cease conversation.

After two hours of stormy debate the so-called Appalachian and White mountain forest reserve bill, amended so as to apply its provisions to all states, was passed by a narrow majority of ten. Measures of this character had been before the house in one shape or another for many years and the day's action witnessed the partial consummation of a policy in connection with the conservation of the forests unceasingly pressed by its advocates. By the terms of the bill the national forest reservation commission is created for the purpose of acquiring by purchase or condemnation the lands needed to promote or to protect the navigability of streams on whose watersheds they lie. The house bill is a substitute for that of the senate and the measure will now go to conference.

The final conference reports on the army, naval and fortifications appropriation bills were agreed to and the measures will now go to the president for signature. In addition to this a vast amount of miscellaneous business was disposed of. A resolution, designed as a concession to the co-called insurgents amending the rules so as to provide one day each week for a call of committees, gave rise to immediate discussion and was adopted by the narrow margin of six, the vote standing 168 to 162.

After a short discussion the house almost unanimously insisted on its disagreement with the senate on the amendment to the legislative, executive and judicial appropriation bill raising the salary of the president, vice president, the speaker, and United States judges and the bill for the third time went back to conference.

Gestures.

"It will help actors in gesturing correctly," said a playwright, "to remember that all gesticulation is an inheritance from our simian ancestors. We show abhorrence best by the same movements with which we would repel a wet dog. We show affection by the movements with which we would receive a loved physical object. We move our heads from side to side to signify 'no' because that was the way our monkey ancestors avoided a proffered and undesirable morsel of food. We nod for 'yes' because that was the way our monkey forbears reached for an acceptable morsel."

JEFFRIES STILL IN DOUBT

Not Certain That He Can Get Into Condition to Fight Johnson.

Chicago, March 2.—"I will fight Jack Johnson for the heavyweight championship of the world if I am able to get into condition to do myself justice," said James J. Jeffries, who stopped off here on his way to New York.

"The story from Omaha that I said I would fight Johnson as soon as I finished my vaudeville engagement is not true," continued Jeffries. "I have never said definitely I would fight Johnson and I am not ready to do so now. My future depends upon my ability to get into condition and I am not certain yet that I will be able to do myself justice if I return to the ring. I must have more time to analyze my condition before I will make any definite plans."

The giant pugilist appeared to be in excellent condition but somewhat heavy. Jeffries was accompanied by Mrs. Jeffries and Sam Berger, his sparring partner.

SOUTH DAKOTA RATE LAW

Judge Carland Grants Temporary Injunction Against It.

Sioux Falls, S. D., March 2.—Judge Carland in the United States court filed an order granting a temporary injunction in the case involving the 2 cent passenger fare rate law recently enacted by the state legislature. The injunction restrains the state board of railroad commissioners, the attorney general and state's attorneys of the various counties through which the lines of railroad run from attempting to compel the railroad companies to comply with the law in controversy. All passengers also are enjoined from instituting any action against the railroad companies for violating the law and from demanding that they be carried at the rate fixed by the new law between points within the boundaries of South Dakota.

Suits or overcoats made to order for \$15, \$20 and \$25 equal to any other tailor's at \$30, \$40 and \$50. I guarantee perfect fit, latest style, best goods, linings and trimmings. I own and manage three stores, Minneapolis, St. Paul and Duluth. I employ the very best cutters, attenders and tailors, and my motto is "Satisfaction or No Pay." I give special attention to customers who live out of town as well as I do to any of my city customers. I have the very best class of trade among the best-dressed men in Minneapolis, St. Paul and Duluth, and I never fail to please. Out-of-town men can write me for samples and measurements blank. I can make clothing for men whom I have never seen just as well as I do for my city customers who come into the store. Please call in my stores or write for samples. Minneapolis store, 310 Nicollet avenue; St. Paul store, 408 Robert street; Duluth store, 18 E Superior street.

Yours truly,

HARRY MITCHELL.

In writing for Samples please address your letter to Harry Mitchell, 310 Nicollet Ave., Minneapolis
